Tuesday, August 2nd, 2011

Mr Rob Oakeshott, MP
Federal member for Lyne
PO Box 1112
Port Macquarie NSW 2444

Dear Mr Oakeshott:

**Re: Your letter of July 18. Acceptance of your offer to arrange meetings.
Sent by Registered Post (with Delivery Confirmation) and by e-mail.**

Thank you for your letter dated July 18, 2011 received last week.

I am delighted to accept your offer to arrange meetings for me with the Australian Academy of Science and Professor Ian Chubb, Chief Scientist prior to meeting with you.

My initial communication with your office on July 6th, 2011 raised serious concerns with the document entitled '*The Science of Climate Change: Questions and Answers*' produced by the Australian Academy of Science. Thus, I suggest you initially make an introduction for me to the President of that body, Professor Suzanne Cory, to arrange a mutually convenient meeting.

Then, if necessary, arrange a meeting for me with Professor Ian Chubb. I would though be delighted to meet with Professors Cory and Chubb together if you prefer.

I understand that would be followed by a meeting with you for me to present solid documented scientific evidence of the real causes of climate variation and solid evidence of corruption of climate science.

I note that your letter fails to identify any real-world scientific evidence that human production of carbon dioxide caused global warming. Yet your office is circulating the document entitled '*The Science of Climate Change: Questions and Answers*'.

Secondly and separately, late last week it was reliably drawn to my attention that scientific advice given to the Multi-Party Climate Change Committee is based on serious misrepresentations of climate science. I am seeking clarification and if correct, as seems highly likely, will present relevant information to you as soon as possible.

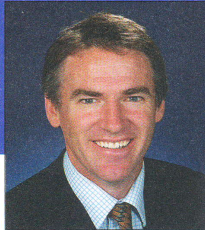

Looking forward to your reply with introductions and initial arrangements.

Yours sincerely,

Original personally signed

Malcolm Roberts

18 July 2011

Mr Malcolm Roberts
180 Haven Road
PULLENVALE QLD 4069

Dear Mr Roberts

Thank you for your recent email concerning climate science.

As you would know, the work of the Multi Party Climate Change Committee is now concluded, and the carbon pricing and emissions trading package will come before the Parliament later this year. Further details about the package can be viewed at www.cleanenergyfuture.gov.au

While I appreciate your offer of a briefing, it may be of more value if you were to first meet directly with the Australian Academy of Science and if necessary Australia's chief scientist, Mr Ian Chubb. I would be happy to assist in arranging this if I can, as I rely on proper process and advice, and the advice of these eminent groups and individuals is important to me.

Yours faithfully

A handwritten signature in dark ink, appearing to read 'Robert Oakeshott', written in a cursive style.

Subject: Deeply concerning e-mail from Rob Oakeshott's office. Notice is hereby given

Dear Rob:

1. The e-mail below from your office spreads misrepresentations of science and climate. I feel deeply concerned because it fails to meet needs for integrity and truth from a federal MP.

2. Among my previous responsibilities I had statutory responsibility for people's lives based on my knowledge of atmospheric gases including carbon dioxide. That knowledge led me in 2006 to question global warming alarm. In 2007 I began researching global warming.

I am an independent, non-aligned volunteer researching global warming for the last four years. My network includes internationally eminent climate scientists, including scientists involved at senior levels within the UN IPCC. Its reports are the basis of the government's climate policy.

My qualifications are similar to those of the UN IPCC Chairman, Rajendra Pachauri.

3. Attached to your office's e-mail was a copy of "The Science of Climate Change: Questions and Answers".

Please advise where in that document there is any real-world scientific evidence that human production of carbon dioxide caused global warming.

My assessment, supported by reputable climate scientists, confirms that the document your office is spreading contains no such evidence. I have proof.

I have requested the Academy's President, Professor Kurt Lambeck to provide proof of human causation. He has failed to provide any evidence.

I have requested evidence from all eight prominent Australian academics: Flannery, Karoly, Lambeck, Steffen, Garnaut, Pitman, England, Hoegh-Guldberg. And from CSIRO Chief Executive Dr Megan Clark and CSIRO Group Executive—Environment, Dr Andrew Johnson. And from the former Chief Scientist, Penny Sackett.

In their various replies, not one of the above has provided any real-world scientific proof.

That includes replies from the Chief Climate Commissioner and other members of the Climate Commission and its Science Advisory Panel.

Are you aware that all those named above receive their funding from government?

4. Rob, I have solid documented scientific evidence of the real causes of climate variation. I can produce solid evidence of the corruption of climate science. Your office is now spreading that corruption.

I please request an opportunity to present irrefutable data to you in your office in Port Macquarie at your convenience. That data includes data from the UN IPCC itself, obtained from the UN IPCC after it feared threats from demands made under provisions of American Freedom of Information legislation.

I can arrange for scientists to join us in your office.

I welcome you bringing any other person(s) of your choice to our discussion.

My request is merely that you listen to the facts collected from scientists world-wide.

Please advise a time convenient to you.

5. This e-mail will be followed by paper copy sent by Registered Post with Delivery Confirmation.

Rob, the dictionary defines fraud as presenting something as it is not to secure unfair gain.

Unless you can advise the evidence requested above, I please ask that your office rescind its e-mail sent to Les
XXXXXXXXXX.

Your trusting nature has dug yourself a huge hole. I can assist you to extricate yourself from that mess. You can then create a lasting legacy of which you and your children can be proud.

This is important to our nation's future and to my children's future. I will protect my children from the effects of corruption you are spreading. I hope that you will similarly be interested in fulfilling your responsibilities to Australia's children and to Australia's parliament.

Your legacy rides on the choice you now make. Do you have the integrity to listening openly to irrefutable data and facts assembled over four years?

The only cost to you is around an hour of your time. The benefits are incalculable and will be lasting for you and your family.

Subject: Report by Lord Andrew Turnbull, ex High Level UK Civil Servant

Thank you Les.

Apologies for the delay in responding to your email. It's taken a bit of time to go through the reports you kindly provided links to.

For your interest, I've attached a report from the Australian Academy of Science. Its conclusions are concurrent with the Academies of Science in the UK, the US, Italy, Germany, Korea, Canada, Japan, China, France and others.

If you require further information, please don't hesitate to contact me.

All the best Les, and again, thank you for taking the time to contact our office.

Kind regards,
Sharon

To: Oakeshott, Robert (MP); Windsor, Tony (MP)
Subject: Report by Lord Andrew Turnbull, ex High Level UK Civil Servant

Dear Mr Windsor & Mr Oakshott,

Today I have come across very interesting articles and a report by Lord Andrew Turnbull.

Lord Turnbull was a distinguished UK Civil Servant under Tony Blair and Gordon Brown. The positions he held were:

Permanent Secretary, Environment Department, 1994-98;
Permanent Secretary to the Treasury 1998-2002,
Cabinet Secretary and Head of the Home Civil Service 2002-05.
He is now a crossbench member of the House of Lords.

FULL REPORT - Bearing this in mind, it is worth the time to read the full report at:
<http://www.thegwpf.org/images/stories/gwpf-reports/lord-turnbull.pdf>

UK DAILY MAIL NEWSPAPER

The newspaper article published yesterday that you may or may not wish to view is at:
<http://www.dailymail.co.uk/news/article-2001189/Ministers-fall-climate-folly-warns-ex-Civil-Service-chief.html>

THE GLOBAL WARMING POLICY FOUNDATION

<http://www.thegwpf.org/uk-news/3178-ministers-fall-for-climate-folly-warns-ex-civil-service-chief.html>

His report is worth more than a cursory look in view of him being an "insider" to the UK political system.
