SUBJECT: **Proven deliberate misrepresentations of climate science**

Dear The Hon Robert-Carl: Katter.

Government climate policy is based on reports by the UN's Intergovernmental Panel on Climate Change (**UN IPCC**). Following the Climategate scandal, a review of IPCC policies and procedures was conducted by the international Inter Academy Council, IAC. So critical is the body of the Council's report, it's impossible for anyone to know which, if any, IPCC statements can be believed. There is no basis for taxing carbon dioxide, CO<sub>2</sub>.

The PM's own **Multi Party Climate Change Committee** was apparently misled.

In replies to my request for evidence proving human production of carbon dioxide caused Earth's latest modest period of cyclic warming that ended around 1998, the **CSIRO** Chief Executive and Group Executive—Environment both failed to provide any proof. My similar request for proof from The **Chief Scientist** failed to produce proof. My request of the **Australian Academy of Science** failed to produce any proof despite attempted assistance from Rob Oakeshott. He was advised of these failures.

For material supporting my statements, please visit sections 6 (Political scam exposed) and 1 (Scientific Untruths) of this volunteer site: <http://www.galileomovement.com.au>. This fax's text and your response will soon be presented for public display on Section 6.

Australians were invited to make submissions to the "Inquiry into Australia's Clean Energy Future". People were given only 7 days to submit. Over 4,000 submissions were received. Only 73 have been accepted as submissions and published. The remainder have been classified as correspondence. Yet parliament's web site says: "There is no prescribed form for a submission to a parliamentary committee." The Deputy Chair is Christine Milne. <http://www.aph.gov.au/house/committee/jscacefl/index.htm>

I can assist you to act on this information and am available to meet you at my expense in Canberra before the vote on the carbon dioxide tax scheduled for Wednesday, October 12, 2011. Subject to timing I can bring experts investigating corruption of science.

You have been notified of deceptions. Julia Gillard dumped the CPRS. She entered the Lodge and broke her promise to Australia. Both major parties deceive by advocating action on carbon dioxide. Please vote against any tax on CO<sub>2</sub> and demand inquiry into the deliberate misrepresentation of science. Best wishes for success with your new party.

Malcolm-Ieuan: Roberts.
