180 Haven Road  
Pullenvale QLD 4069

Saturday, October 01, 2011

The free Man, Martin: Callinan.,  
acting as Dr MARTIN CALLINAN  
Science Policy Manager  
Australian Academy of Science  
GPO Box 783  
Canberra ACT 2601

Dear Mr Callinan:

**RE: Your references fail to provide scientific evidence as proof of your claim**

Your advice of Monday, August 29, 2011 was followed. I have completed checking in the manner you suggested all 31 references that the Academy specified in its email dated Monday, August 15, 2011. The references were those numbered 90-120 in the Academy's booklet entitled *'The Science of Climate Change: Questions and Answers'*, available here: <http://www.science.org.au/reports/climatechange2010.pdf>.

Contrary to your promise, you have failed to provide any specific, scientifically measured real-world (empirical) evidence as proof that human production of carbon dioxide, CO<sub>2</sub>, caused Earth's latest period of modest cyclic global atmospheric warming that ended around 1998.

Please refer to the unsigned email (Monday, August 15, 2011) from the Australian Academy of Science. It was sent apparently following your offer to provide information.

Please recall our phone conversations on Monday, August 15, 2011 and on Monday, August 29, 2011,

I conclude there is no specific scientifically measured real-world evidence as proof in the references you provided. Nor is there such evidence as proof in the Academy's glossy booklet entitled *'The Science of Climate Change: Questions and Answers'*. Thus, there is no specific, scientifically measured real-world evidence proving the claim that human production of carbon dioxide caused Earth's latest period of modest, cyclic global atmospheric warming that ended around 1998.

As we agreed, I now please request you identify within section 4 of the Academy's booklet and within its listed references specific evidence proving that human production of CO<sub>2</sub> caused global warming. You offered that after I checked all the references you provided you would identify such specific scientific evidence and its specific location in the Academy's booklet and in its specific references.

After what I learned from you during our conversation and especially in checking the references you provided I am deeply concerned about what I conclude to be your irresponsible or negligent or possibly dishonest misleading on the science. You have formal qualifications in science yet seem to lack understanding of causality.

To scientifically prove human production of CO<sub>2</sub> caused Earth's latest period of global atmospheric warming with future catastrophic consequences it seems clear that you will need to provide specific scientifically measured real-world evidence proving that:

1. Global atmospheric temperature has been rising during the past twelve (12) years since 1998 and is continuing to rise; and,
2. In the open atmosphere, global carbon dioxide level determines global atmospheric temperature; and,
3. Human production of carbon dioxide, CO<sub>2</sub>, determines global atmospheric carbon dioxide levels; and,
4. Global atmospheric temperature rises are catastrophic to humanity and to the Earth's living natural environment comprising animal and plant species.

After doing what you recommended I am even more dismayed and annoyed that you laughed at Mr Rob Oakeshott's request to arrange a meeting between myself and the Academy—possibly its President—to discuss my concerns. You advised on Monday, August 29<sup>th</sup> that in regard to arranging a meeting with the Academy nothing has happened and is not likely to happen.

I will now take this up directly with Mr Oakeshott, MP.

Frankly, given that you have educational qualifications in science, I am amazed that you cited the references numbered in the AAS' email of Monday, August 15<sup>th</sup>, 2011. In citing many of those references you show, in my opinion, a lack of understanding of causality. Going beyond your advice I checked references numbered 121, 127 and 128. The latter two purport to be on the topic of attribution of warming. Yet, like the other 31 references

checked, all three fail to provide scientific causal evidence as proof that human CO<sub>2</sub> caused warming.

Although you have not fulfilled your commitment, I enclose two paper documents for you to scrutinise. They are available on the Internet and are part of the series entitled '*Freedom's Foundation—Reclaiming our Planet and our Country Using Truth*': '*Exposing Corruption of Climate Science: Misrepresentations, Distortions, Omissions, Evasions, Myths and Lies*' available at: [http://www.galileomovement.com.au/docs/freedom\\_exposing.pdf](http://www.galileomovement.com.au/docs/freedom_exposing.pdf) and '*Carbon Dioxide (CO<sub>2</sub>) Facts*' available at: [http://www.galileomovement.com.au/docs/freedom1-CO<sub>2</sub>.pdf](http://www.galileomovement.com.au/docs/freedom1-CO2.pdf)

Also available for you are the following documents provided at [www.conscious.com.au](http://www.conscious.com.au): '*Thriving with Nature & Humanity*'; '*Two Dead Elephants in Parliament*'; '*The Eco Fraud, Part 1: A Timeline of International Fraud*'; '*The Eco Fraud, Part 2: Environmental Casualties*'; '*The Eco Fraud, Part 3: Black Deaths in Green Custody*'; '*Climategate Inquiry References The Eco Fraud: A Timeline of International Fraud*';

These contain references to much scientific material and documents.

As you will likely know from your reading of science, the United Nations Intergovernmental Panel on Climate Change's supposed peer-review system is not a scientific peer-review. Recent years have revealed that the UN IPCC's supposed review processes and many supposed peer-reviewed references it cited are really only subjected to 'buddy-review'. The UN IPCC does not rely on scientific peer-review.

Instead of blindly trusting to processes I take responsibility by thinking critically for myself and exercising judgment. The documents above contain references you will likely find useful to the work of Jaworowski and Ernst Georg Beck. Beck's data is available here: [http://www.biomind.de/realCO<sub>2</sub>/](http://www.biomind.de/realCO2/)

Although you have failed to provide evidence as proof and thus not kept your part of our agreement, I provide further documents available at these references and links: '*Nature, not Human Activity Rules the Climate*' available at: [http://sepp.org/publications/NIPCC\\_final.pdf](http://sepp.org/publications/NIPCC_final.pdf) and produced by an authoritative international panel of independent scientists, '*Climate Change Reconsidered: The Report of the Nongovernmental Panel on Climate Change, 2009*' available at <http://www.nipccreport.org/reports/2009/2009report.html> '*Climate Change Reconsidered 2011 Interim Report of the Nongovernmental International Panel on Climate Change*' available at: <http://www.nipccreport.org/reports/2011/2011report.html>

You could visit my personal web site at [www.conscious.com.au](http://www.conscious.com.au) and The Galileo Movement's web site [www.galileomovement.com.au](http://www.galileomovement.com.au). Both sites reveal the deep and systemic subversion of climate science by the UN IPCC and government funded agencies

and individuals. The site reveal the lack of any specific, scientifically measured real-world evidence as proof of the supposition that human production of CO<sub>2</sub> caused global warming.

At The Galileo Movement's site I suggest you check sections 6, 1 and 2 available here:

- [http://www.galileomovement.com.au/political\\_scam\\_exposed.php](http://www.galileomovement.com.au/political_scam_exposed.php)
- [http://www.galileomovement.com.au/scientific\\_untruths.php](http://www.galileomovement.com.au/scientific_untruths.php)
- [http://www.galileomovement.com.au/science\\_futility.php](http://www.galileomovement.com.au/science_futility.php)

Given your qualifications and our discussions, I conclude that your advice has likely been reckless or possibly deliberately deceptive. I attach a copy of my complaint to the President of the Academy, Professor Susan Cory.

I look forward to your advice on specific evidence proving human causation of dangerous global warming and to comments on the material presented to you.

Yours sincerely,

Malcolm-Ieuan: Roberts.
