

## The Rice Demo - Carbon Dioxide Facts Video: Transcript & References

Welcome.

Carbon dioxide, CO<sub>2</sub>! \*Less than zero point zero four percent of Earth's air. In every 85,800 molecules of air shown here as rice grains, just 33 are carbon dioxide. \*See references below

Of these 33 CO<sub>2</sub> molecules - 32 are from Nature.

Carbon dioxide from human activity (that's farming, transport, mining and industry) is only 3% of Earth's annual CO<sub>2</sub> production.

85800 molecules of air, 32 molecules of CO<sub>2</sub> from Nature and 1 from us.

32 essential for life, one supposedly causing catastrophic global warming? No it's not.

The truth is CO<sub>2</sub> is essential for all life on Earth - crops, forests, food, humans and animals.

It is resident in the atmosphere for as little as 4 or five years before being recycled into plants, soil, rocks and oceans. 4 years, not 100 or even 1,000 as you're being told.

But wait, it's crazier. Of this tiny amount of human made CO<sub>2</sub> (one rice grain) Aussies make just 1.5%.

Australian CO<sub>2</sub> is 1 molecule in every 5.7 million molecules of air. The government & the Greens have stated their tax is designed to reduce our CO<sub>2</sub> production from 1 molecule in every 5.7 million molecules of air to 1 molecule in every 6 million molecules of air. For that they're introducing a Carbon Dioxide Tax, designed to cost you 72 billion dollars in the first 5 years.

Measurements cited by the government themselves reveal temperature changes precede changes in CO<sub>2</sub> levels. Temperature sets CO<sub>2</sub> levels. CO<sub>2</sub> does not determine the temperature.

Variation alone in Nature's CO<sub>2</sub> production is estimated at four times the TOTAL human production.

Nature alone determines CO<sub>2</sub> levels. Not humans.

The sole supposed '*Expert Adviser*' on climate science to the Multi Party Climate Change Committee is Professor Will Steffen.

He's paid by the Department of Climate Change. He recently made public admissions.\*\*

\*\*See references below

Based on his own words it seems clear that he misled the government-Greens committee that recommended the tax to parliament.

The Carbon Dioxide Tax contradicts science and Nature. It's based on misrepresentations, corruption, fraud and lies.

It ignores the wishes of the people. Your wishes.

Axe the Tax.
