

SHOULD AUSTRALIANS BE ENTITLED TO DEMOCRATICALLY CONTROL THEIR OWN COUNTRY? GOVERNMENT SAYS UNITED NATIONS TO HAVE FINAL SAY, NOT AUSTRALIAN VOTERS

PUT AUSTRALIAN AUTONOMY & DEMOCRACY FIRST, SAY NO TO UN CLIMATE INTERFERENCE

3 DECADES OF BIPARTISAN BETRAYAL & WORKING AGAINST AUSTRALIAN INTERESTS – NOW THEY WANT MORE!

For more than 3 decades successive Australian governments have been sacrificing Australian independence & autonomy & transferring power to the United Nations to control our climate, our environment, our private property, our energy use, our borders, our human rights ([1](#), [2](#), [3](#), [4](#), [5](#), [6](#), [7](#), [12](#)), & even [the education of our children](#). The only way this could be achieved was to use various mechanisms ([8](#)) to deny the people any democratic choice ([2](#), [6](#), [8](#), [9](#)), as advised by the UN ([9](#)). Politicians, & the media, have preferred to conceal this agenda, especially during election campaigns ([9](#)).

NOW FOREIGN MINISTER JULIE BISHOP SIGNS UP WITH UN FOR ANOTHER 15 YEARS, BUT DID SHE ASK YOU?

Following Julia Gillard's renewed commitment to the UN's undemocratic Agenda 21/SDG program in 2012 ([1](#), [5](#), [10](#)); & after forcing Australians to comply with the dictates of the UN's 'voluntary' Agenda 21 program for 23 years ([1](#), [2](#), [3](#), [4](#), [5](#), [6](#), [7](#)), in September 2015 Julie Bishop continued Gillard's commitment by signing the UN's [Agenda 21/2015-2030 sustainability agreement](#) to continue transferring power to the UN while preventing

Australian citizens from having any democratic choice ([3](#), [6](#), [7](#), [10](#)). They abandoned Australian interests for the '[greater global good](#)' ([2](#), [11](#)). Requests to [the Prime Minister's office](#), & to [Foreign Minister Julie Bishop](#), to grant Australians a democratic choice, were completely ignored. The UN has long promoted global interdependence, and the [global fragility which inevitably results](#), but now the [UN says it is these global threats in the "age of sustainable development"](#) which have made the UN "[more essential than ever](#)". [UN climate chief Christina Figueres says](#) sustainability & climate change are the same because "[they're all moving in the direction of the type of society that we actually need](#)"

NEXT STEP, CLIMATE CHANGE IN DECEMBER 2015 – LIKE SUSTAINABILITY, THE UN WANTS TOTAL GLOBAL CONTROL

At the [2015 climate conference in Paris](#), the [UN has instructed all governments](#) that they "[will have to come up with an agreement that is universal and legally binding](#)". The accelerating drive by the UN to control the world contradicts science. Even the IPCC acknowledged in their latest report, [that global warming has stopped](#); they acknowledged their [climate models got it wrong and have been exposed as alarmist](#); they [acknowledged droughts are NOT caused by humans](#); & they acknowledged [there is no evidence of AGW](#)

[in local communities around the world](#). Experts agree, it is all about the UN's global political agenda, certainly not science or democracy ([13](#), [14](#), [15](#), [16](#), [17](#)). As UNFCCC chief [Christiana Figueres pointed out](#), the aim of the UN is to bring about a "[centralized transformation](#)"....."[one that is going to make the life of everyone on the planet very different.](#)" [Figueres continues](#): "[global society, is moving to the point where we are going to need more and more global governance muscle.....Climate change is only the first of the major, major planetary challenges that we are being given, almost as a playground.....to go into that playground and exercise our global governance capacity](#)"

ONE COMMON THEME – WORKING AGAINST AUSTRALIA & TRANSFERRING POWER TO THE UN

"Nations are in effect ceding portions of their sovereignty to the international community and beginning to create a new system of international environmental governance." [Lester Brown](#)

Politicians say government must work against Australian interests ([18](#)) for the greater global good. The [2015 ALP National Policy Platform](#) ([18](#)) promises even more allegiance to the UN & forcing Australians to obey UN demands.

According to Sir Harry Gibbs, former Chief Justice of the High Court ([19](#)):

"A nation is not sovereign unless it is independent from control from outside its own borders."

NOW THEY WANT TO BE ABLE TO [ARREST ANYONE](#) FOR EXERCISING THEIR DEMOCRATIC RIGHT TO OBJECT!
