

# SHOULD AUSTRALIAN LAWS BE DEMOCRATIC OR IMPORTED?

Climate Change, Environment, Human Rights, Border Control – Should Australian Laws be Determined Democratically by the People, or be Imposed Undemocratically by the UN?

**Do you want one harmonious, productive Australia, or a divided Australia torn apart by minorities, extremists, & politicians determined to sell out to the UN & foreign entities?**

## **POLITICIANS SUPPORTING IMPORTED UN 'LAWS', NOT DEMOCRATIC AUSTRALIAN LAWS**

According to Peter Faris QC: "The Left do not want to have Australian laws for Australia. They want UN laws. This, of course, removes Australian sovereignty. Instead of Australians making their own laws, the laws are imported (as some sort of universal truths) from the UN. The ultimate aim, which will be achieved, is that every UN covenant is legislated into law in Australia... The introduction of these laws acknowledges their moral superiority---they are universal laws and must be obeyed. Our sovereignty is diminished by the fact that these superior laws are the product of an unelected body outside of Australia."

## **ALP SAYS THEY WILL FORCE AUSTRALIANS TO COMPLY WITH "INTERNATIONAL OBLIGATIONS". ALP OFFERS NO SUPPORT FOR DEMOCRATIC AUSSIE LAWS!**

Former Climate Change Minister Greg Combet confirms when it comes to climate change, the UN comes first, the Australian people come last. Democracy and the views of the Australian people must not interfere with the ALP's subservience to the UN.

The Australian Labor Party Policy Platform states: "We (the ALP) are... committed to the United Nations..... Existing international environmental protection regimes need to be strengthened..... Labor will adhere to Australia's international human rights obligations

and will seek to have them incorporated into the domestic law of Australia..... Labor will treat people seeking our protection.....in accordance with our international obligations.....**Labor will legislate to enshrine our international obligations into Australian domestic law**" .....and refugee policy MUST NOT be decided democratically within Australia but must be determined by "international cooperation ..... Labor will strengthen Australia's links with the Muslim world, including through the Organisation of Islamic Cooperation" "Labor in Government will reintroduce...the Refugee Convention into the Migration Act."

## **UN SAYS COUNTRIES MUST HAVE OPEN BORDERS:**

### **Countries Agree to UN SDG Goal 10.7 - Migration Unrestricted by National Borders**

As the UN points out, countries must surrender sovereignty to the UN if the UN is to have the power to deal with global problems.

### **UN says Europe must "Open Borders" for "Sustainable Development"**

At the 29<sup>th</sup> Session of the UN Human rights Council, Francois Crépeau claimed abandoning national sovereignty and border restrictions is necessary for "sustainable development". According to Ellis: "Migration is here to stay," Mr. Crépeau says.....**"democratic borders are porous by nature."**....."governments should be constructing "migration policies that facilitate mobility and celebrate diversity" because "sealing international borders is impossible."

## **SOCIALISTS SUPPORT OPEN BORDERS - NO DEMOCRATIC CHOICE FOR THE PEOPLE**

Socialist Alternative Australia says "We oppose all immigration controls and support open borders." According to Socialism Today, "A Socialist World would be one without passports and borders."

## **LIBERALS & LIBERTARIANS JOIN FORCES WITH UN & SOCIALISTS TO DEMAND OPEN BORDERS**

According to the "conservative" "libertarian" think tank, the Institute of Public Affairs, Australia should "relax borders" and "help millions who want a better life", and according to Chris Berg, "true economic liberty means more open borders."

**As Wayne Swan & Kevin Rudd pointed out, we must work against Australian interests for the 'greater global good'.**

**It is all about putting the UN first, & Australia, and Australian democracy, last, all for the greater global good.**

**THIS IS WHAT THEY WANT, WHAT DO YOU WANT?**

## **ONE AUSTRALIA UNITED BY DEMOCRACY & COMMON VALUES:**

**OR A NATION DIVIDED BY EXTREMISM, MINORITIES, BETRAYAL, & POLITICAL SUBSERVIENCE TO THE UN?**

## **STAND UP FOR DEMOCRACY & TRUTH, STAND UP FOR THE PEOPLE, STAND UP FOR FUTURE GENERATIONS!**

Successive governments have been helping the UN implement their Agenda 21 program for 23 years, even while pretending the program is 'non-binding' and denying the people any democratic choice. This year, 2015, the UN is seeking to lock the world into its 2015-2030 agenda through the SDG summit in September, & the Climate Change Conference in December. To do this the UN will again rely upon our politicians to deceive the people & enforce its undemocratic 'non-binding' agreements in this country, for another 15 years, while it also seeks ways of expanding the role of law to further enforce compliance.
