Dear Professor Karoly, and other Observers,

Recently we sent you, Professor Karoly, and many others an email regarding your response to Margot O'Neil of the ABC's, question regarding fraud. As the record shows we sent two bulk emails. The original and your responses can be seen [here](#).

Thank you for offering your thoughts regarding public emails and Libel (see link above). However, we do not agree. Our emails to you always include many others for a good reason. Every communication we have with you, is, and will always be evidence based, open, honest and on the public record. We believe in the power of the public letter to distribute evidence to the people.

We also have read the paper you recommended. We cannot accept it at face value Professor Karoly as we have previously [discussed this paper with you](#)

In our opinion, political stability and democratic people-power will not return to our nation until what the evidence indicates is a politically driven global scam "Human Caused Global Warming" (HCGW), is investigated. To that effect we make the following points:

Below is just one example out of many, of a weather station where the evidence indicates that the original data has been adjusted. The retrospective homogenisation process has dramatically lowered the temperature for the period [1920 to 1960](#)

Below are the BoM's retrospective historical temperature records for central Australia.
