

BACKGROUND TO THE RESUBMISSION OF THE FORMAL COMPLAINT AGAINST
DOE, FORMERLY DCC, FOR CONTINUING TO PORTRAY CARBON DIOXIDE INCORRECTLY
AS A TRANSPARENT POLLUTING GAS

It took 3 emails and 2 phone calls to get the Ombudsman to respond. The email of 31st January is not shown as it is superfluous. The Ombudsman's response was predictably disappointing. See for yourself.

The obstacle for the ombudsman currently is that we do not provide specific evidence that the Department's publications have confused members of the public. Well, I can certainly testify to the effect that my children have been confused by the propaganda and misinformation.

If you, or your children, think that you have been misled,

PLEASE SUBMIT A FORMAL COMPLAINT TO THE DOE STATING THAT, AND THEN TAKE IT TO THE OMBUDSMAN WHEN THEY DO NOT GIVE YOU SATISFACTORY ANSWERS.

It's time to clean up the public service and rid it of its corrupt elements.
