RE: DOES THE BOM CORRUPT CLIMATE SCIENCE IN PURSUIT OF THEIR AGENDA?

Dear Drs. Ryan and Curtis,

A bit baffled at this stage, as I'm not sure of the origin of either sets of data presented in the first open letter to Prof. Karoly that are used to make the claim that the Bureau data has been adjusted in some way from its original values, as the original sources for these data are not listed anywhere in the document that you refer to. It just says that they were produced by "independents": no reference to or description of the methodology used to produce them. This does make it a little difficult to conclude anything scientifically from the open letter. I'll need more to go on, I'm afraid. A draft scientific paper on this would be good, if you are convinced of your claims.

I would prefer not to cc this to the wider group as I'm not sure how many of them would want to engage in this debate at this stage.

Cheers,

Kevin W.
