Fwd: Waiting for Response to DOES THE BOM CORRUPT CLIMATE SCIENCE IN PURSUIT OF THEIR AGENDA?

Dear Professor Walsh,

With the Malcolm Roberts permission i am forwarding his email to all those copied into the email thread. Please take the time to read the CSIROh document and its appendices. It is an evidence based document of the decades long struggle for the restoration of scientific integrity in Australia.

I have read the non-evidence based article you referenced written by your colleagues. Unfortunately Professor Walsh ,it does not address the specific questions regarding how the BOM has changed the raw data which showed a cooling trend for Rutherglen to a warming trend. As Jennifer Marohasy's work shows, Rutherglen is just one example of many instances of questionable homogenisation practices by the BOM.

As you now realise one of Australis largest newspapers is now questioning the BOM's temperature records. This is a very serious matter which needs to be discussed at a national and community level. The people of Australia have a right to be informed.

Regards

Dr Judy Ryan
