

Carbon Tax Corruption Scandal: Part 5 – Protect Our Freedom with The Galileo Movement

(Care-Core-Cure)

http://www.galileomovement.com.au/restoring_morality_justice.php

And:

http://www.galileomovement.com.au/protecting_freedom.php

In previous episodes we realised that contrary to what the Greens say, humans do care; government and Greens climate policies contradict science; and, human carbon dioxide does not drive temperature or climate. It's not polluting Earth's atmosphere. Nature controls climate.

We learned of severe economic and environmental damage from carbon dioxide taxing, trading and rationing. We learned of a small group of UN bureaucrats driving climate fraud for 40 years. To achieve a political agenda, to control us by dictating finances, energy, property rights and resource allocation and by undermining national sovereignty. And stealing our money to hurt us.

What can you do about it?

Firstly, think of your personal situation.

Under this Rudd-Gillard-Brown government, electricity prices have increased by an average of 10% a year.

Prices are forecast to rise 30% over 2 years. And that's without the tax.

Under this Rudd-Gillard-Brown government, average water & sewerage prices have increased 9% each year.

Think how much more it now costs you to fill your car.

With the global economy fearing national debt defaults, America's credit rating has been downgraded. Our economy is jittery. Retailers are retrenching and closing. The high Aussie dollar is hurting exporters and manufacturers. Business and consumer confidence is down.

Living costs are exploding. Uncertainty is crippling. The Government is addicted to lies, waste and massive debt. Yet Gillard and Brown want to add more of a burden.

I've had a gutful of government lies, of being treated like a mug, of seeing our kids and communities bashed with endless propaganda that reeks of unfounded fear and guilt. It's destroying people's spirit.

I've had a gutful of government shovelling tens of millions of your dollars into propaganda that misrepresents the science, tells any lie, buys any scary headline.

Our web site provides links to MPs' addresses, email addresses and phone numbers. Tell your MP, Senators, the ALP, the Greens you've had enough of Gillard's

and Brown's lies, you've had enough of them treating us like mugs, you've had enough of them destroying Australia's governance.

(House of Representatives: members' addresses:

<http://www.aph.gov.au/house/members/memlist.pdf>

Senators' contact details:

<http://aph.gov.au/senate/senators/contacts/los.pdf>)

Secondly, think of your industry and community. Ask yourself, what will happen? I'm speaking out around Australia and overseas to protect freedom, to protect the environment, to protect the science that gave us our way of life and security, to protect our economy and most important of all, to protect our kids' future.

Only one number matters: 76. We need 76 federal members of parliament's House of Representatives to vote against the tax. Already the independents Oakeshott, Wilkie and Windsor contradict science and seem to sacrifice the nation's needs to their personal agenda.

Contact Independent MP's. Ask them to vote against the tax.

Belt the Liberals for their lack of courage and integrity in not exposing climate fraud that they know exists. Although their approach won't damage our country, how can they lead if they're afraid of the truth, afraid of the media?

Why has the Opposition's spokesman on climate change, Greg Hunt turned his back on solid documented evidence? It was given to him personally and explained. It exposes climate fraud and proves

carbon dioxide cannot drive climate. He volunteered that our presentation is one of the best presentations he's ever received.

Yet in the months since, three times when challenged he failed to identify any errors in our material. He merely says everyone is entitled to their belief. Science is not about belief. It's about verifiable data. Policy affecting your future and your wealth should not be based on someone's religion.

Sadly, the ALP, Greens and Liberals demonstrate two main casualties of fraudulent global climate alarm: the deaths of national governance and scientific integrity.

They have been betrayed by supposed 'loyalty' to the party system that has subverted parliament in Australia, New Zealand and Britain and congress in America.

It seems climate alarm has exposed party loyalty as betrayal of voters and as treason to the nation.

The Galileo Movement has one purpose: to Axe the Tax. Get rid of it forever. Going above politics by exposing misrepresentations of science Deceptions paid for and spread by government.

Please go to our web site. Read the summaries. Read the details. Share the facts. Decide how you can help The Galileo Movement. We need your skills and financial support for projects underway to Axe the Tax and to protect freedom. Your freedom.

www.galileomovement.com.au

Please tell your industry association, employer, community group, MP and friends that The Galileo Movement can support them with facts.

It's time to stand up for freedom and truth. Government lies and deception have split our nation and angered people. Yet neither hate nor violence are answers. They bring misery and cloud the mind. Instead true forgiveness ignores blame. True forgiveness brings stillness, clarity and connection. Clear minds focus our care so our cure protects the core issue, which is our freedom.

Please: learn and share the facts, forgive, take action yourself to protect your freedom.

I'm Malcolm Roberts, for The Galileo Movement, lets work together to Axe the Tax.

Thank you for your time.
